decode

Brand guidelines

Logo, colour, type and voice for Decode, the game-based talent assessment platform.

Version 1.0 · November 2026

01

Who we are

Decode shows how people really work through short, game-based job assessments. Candidates and employees handle real situations from the job; HR teams get evidence for every skill, team analytics and development plans.

Calm

We speak like a trusted advisor to HR teams in banks, insurers and large employers. Quiet colours, clear layouts, no noise.

Credible

Every claim is backed by evidence: what the person did, in which situation, and how it compares.

Clear

Plain words, one idea per screen, one key action per page. A small spark of play comes from the games themselves.

The brand in one line: **navy and white, with red, amber and green used only where they mean something.**

02

The logo

The word **decode** in Inter SemiBold, with the **insight lens** taking the place of the “o”. The lens is a magnifying glass holding three rising bars: look closely at someone’s work and the evidence grows.

Wordmark

The main logo. Use it wherever there is room: website header, documents, slides, emails.

Lens symbol

The lens on its own, for tight spaces where the name is already nearby: the scrolled header, a collapsed menu, social posts.

App icon

The white lens on a navy rounded square, for favicons, phone home screens and social profile pictures.

03

Logo versions

Pick the version that matches the background. Never recolour the logo yourself.

App icon
Favicon, phone, social avatar

04

Clear space and size

Clear space: keep at least **x** clear on every side, where x is the height of the lens's circle. No text, edges or other logos inside it.

Website header · 120 px wide

Minimum on screen · 80 px wide

Lens minimum · 16 px

Print minimum: wordmark 24 mm wide, lens 6 mm. Below the wordmark's minimum, use the lens or the app icon instead.

05

Logo don’ts

Also: don’t set the name in another font, don’t add a separate “o” next to the lens, and don’t put the lens beside the full word as well.

× Don’t stretch or squash

× Don’t recolour the bars

× Don’t change the colour of the letters

× Don’t rotate

× Don’t add shadows or effects

× Don’t place on busy or mid-tone backgrounds

06

Motion

On the website the header logo starts as the full word. When the visitor scrolls, the letters fold into the lens over 0.45 s and the three bars grow back from the bottom. It reverses when they scroll back to the top.

Start

decde, the full word

Folding

letters fold into the lens

Lens

only the lens remains

Timing

0.45 s, ease-in-out. Bars grow over 0.5 s, each 70 ms after the last, short to tall.

Reduced motion

If a person has asked their device to reduce motion, the logo switches without animating. Never loop it inside the product.

07

Colour

Four colours. Navy carries the brand; red, amber and green come from the bars in the lens and each has one job. Greys are navy mixed with white.

Navy

#0F172A

Tint #EEF2F6

RGB 15 23 42
CMYK 92 82 0 84 (approx.)

Text, buttons, links, dark sections, the logo.

Green

#15803D

Tint #E8F3EC

RGB 21 128 61
CMYK 84 0 52 50 (approx.)

Strengths, progress, “Strong fit”, completed steps.

Amber

#F4C20D

Tint #FEF7DA

RGB 244 194 13
CMYK 0 20 95 4 (approx.)

Development areas; the key button on navy. Text on white uses #806600.

Red

#B91C1C

Tint #FDECEC

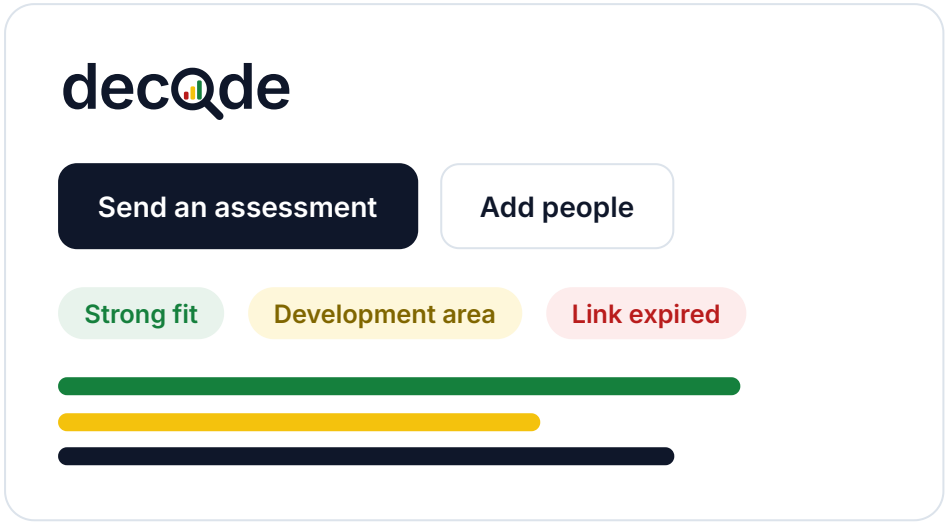

RGB 185 28 28
CMYK 0 85 85 27 (approx.)

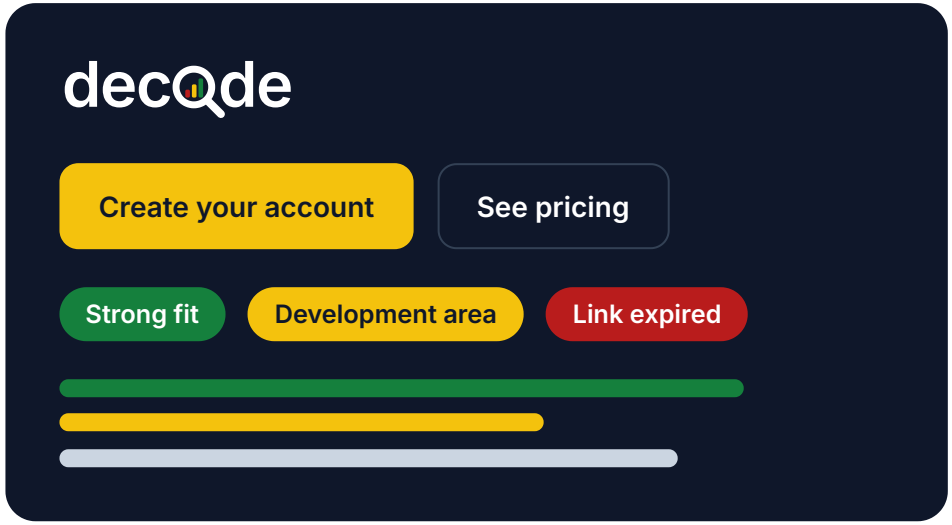

Errors, warnings, expired links; the logo and top stripe.

08

Using colour

- **One key button per screen:** navy on white, amber on navy. Every other button is outlined.
- **Never show a person's score in red.** 70 and above is green, 50–69 amber.
- **Red, amber, green always in that order:** short to tall in the lens, left to right in the top stripe.
- **No other colours:** no teal, cyan, blue or purple.

09

Light and dark

People choose how Decode looks on their own device: in Settings → Appearance, the account menu, or the website footer.

Light

The default: white and cloud with navy text.

Dark

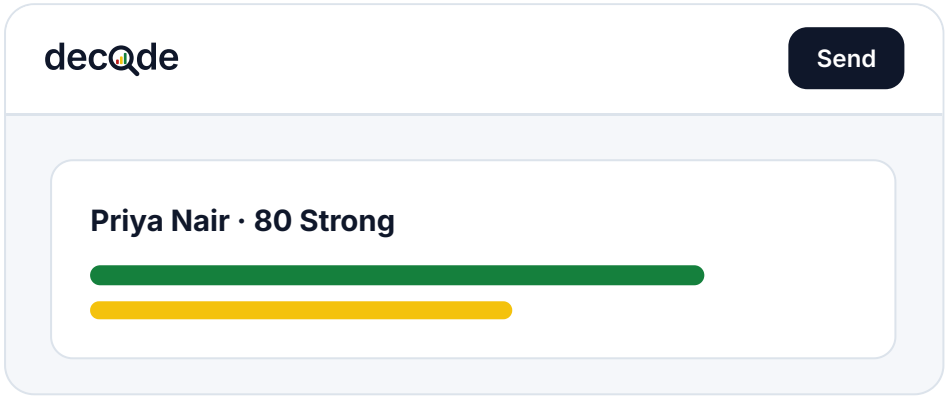

Navy page, slate cards, near-white text.

Time of day

Dark from 7 pm to 7 am, light in the day.

Match computer

Follows the device's own light or dark setting.

In dark mode the key button turns amber with navy text, links are white and underlined, and charts use light slate (#CBD5E1) where they would use navy. Candidates always see the light version of their game.

10

Typography

Inter is the only typeface: no serifs, no monospace. It is free under the SIL Open Font License and included in this folder.

Aa

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
0123456789 ₹ % & ?

Regular 400 **Medium 500** **SemiBold 600**

Bold 700

Heading 1	40 px · Bold · −1.5%
Heading 2	30 px · Bold
Heading 3	20 px · SemiBold
Lead paragraph	18 px · Regular
Body text for reading	15 px · Regular
Button and label	14 px · SemiBold
EYEBROW LABEL	12 px · SemiBold · capitals · +8%

Sentence case for headings. Numbers in scores, credits and tables use tabular figures so columns line up.

11

Interface elements

Softly rounded corners, a 4 px spacing grid, and one key action per view.

Primary Secondary Text link

Strong Proficient Developing

Cash Handling · 4 situations 82

Development area: Customer negotiation. Suggested: shadow a senior officer on 3 calls.

Corners	Buttons and inputs 10 px · cards 12 px · hero cards 18 px · tags and bars fully round
Spacing	4 · 8 · 12 · 16 · 24 · 32 · 48 px
Cards	White on cloud, 1 px #DCE3EB border, soft shadow
Icons	Lucide outline icons, 1.75 px stroke, 16–20 px, always with a label
Top stripe	4 px band: red, amber, green in equal thirds above the header and menu

12

Voice

Write the way a senior HR partner talks: plain, specific and kind.

Do

- “Rahul’s link expires in 2 days. Send a reminder?”
- “Handled 4 of 5 angry-customer calls calmly.”
- “Suggested: shadow a senior officer on 3 restructuring calls.”
- “Credits are only used when you send.”

Don’t

- “Action required on pending invitation!!”
- “Great communicator!”
- “Weakness: negotiation.”
- “Leverage psychometric synergies.”

- Say what happens and why. Describe evidence, not labels.
- Frame development areas as next steps, never as failings.
- No jargon, no exclamation marks in the product, sentence case everywhere.

13

What’s in this folder

01 Guidelines	This document.
02 Logo / Wordmark	SVG (navy, white, one-colour navy, one-colour white); transparent PNG at 600–4000 px; PNG on white, cloud and navy backgrounds.
02 Logo / Lens symbol	The same set for the lens on its own, up to 2048 px.
02 Logo / App icon	SVG (rounded and square), PNG from 16 to 1024 px, and favicon.ico.
03 Colours	Palette sheet, HEX/RGB/CMYK values, and CSS variables for developers.
04 Font	Inter Regular, Medium, SemiBold and Bold (TTF) with its open-font licence.

Which file? Use SVG wherever it works (websites, design tools). Use the transparent PNG for slides and documents, and the “on background” PNG when you need a ready-made image, such as for social media.
